INSTALLED BUILDING PRODUCTS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 - ORGANIZATION

Installed Building Products (“IBP”), a Delaware corporation formed on October 28, 2011, and its wholly-owned subsidiaries (collectively referred to as the “Company,” and “we,” “us” and “our”) primarily install insulation, waterproofing, fire-stopping, fireproofing, garage doors, rain gutters, window blinds, shower doors, closet shelving and mirrors and other products for residential and commercial builders located in the continental United States. The Company operates in more than 250 locations and its corporate office is located in Columbus, Ohio.

The vast majority of our sales originate from our one reportable segment, Installation. Substantially all of our Installation segment sales are derived from the service-based installation of various products in the residential new construction, repair and remodel and commercial construction end markets from our national network of branch locations. Each of our Installation branches has the capacity to serve all of our end markets. See Note 3, Revenue Recognition, for information on our revenues by product and end market, and see Note 10, Information on Segments, for information on how we segment the business.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

The accompanying consolidated financial statements include all of our wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated.

The information furnished in the Condensed Consolidated Financial Statements includes normal recurring adjustments and reflects all adjustments which are, in the opinion of management, necessary for a fair presentation of the results of operations and statements of financial position for the interim periods presented. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and the rules and regulations of the Securities and Exchange Commission (the “SEC”) have been omitted pursuant to such rules and regulations. We believe that the disclosures are adequate to prevent the information presented from being misleading when read in conjunction with our audited consolidated financial statements and the notes thereto included in Part II, Item 8, Financial Statements and Supplementary Data, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2025 (“2025 Form 10-K”), as filed with the SEC on February 26, 2026. The December 31, 2025 Condensed Consolidated Balance Sheet data herein was derived from the audited consolidated financial statements, but the related footnotes do not include all disclosures required by U.S. GAAP.

Our interim operating results for the three and six months ended June 30, 2026 are not necessarily indicative of the results to be expected in future operating quarters.

Note 2 to the audited consolidated financial statements in our 2025 Form 10-K describes the significant accounting policies and estimates used in preparation of the audited consolidated financial statements. There have been no changes to our significant accounting policies during the six months ended June 30, 2026.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Recently Issued Accounting Pronouncements Not Yet Adopted

We are currently evaluating the impact of the following Accounting Standards Update ("ASU") on our Condensed Consolidated Financial Statements or Notes to Condensed Consolidated Financial Statements:

Standard	Description	Effective Date	Effect on the financial statements or other significant matters
ASU 2024-03 "Income Statement-Reporting Comprehensive Income-Expense Disaggregation Disclosures" (Subtopic 220-40): Disaggregation of Income Statement Expenses.	This pronouncement amends Topic 220 to require all entities to disclose on an interim and annual basis disaggregated information about certain income statement costs and expenses in the notes to financial statements.	Effective for annual periods beginning after December 15, 2026, and interim periods beginning after December 15, 2027. Early adoption is permitted.	The Company will adopt and apply the guidance as prescribed by this ASU to income statement expenses that occur after the effective date. We are currently assessing the impact of the adoption on our consolidated financial information and disclosures.
ASU 2025-06 "Intangibles-Goodwill and Other Internal-Use Software" (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software.	This pronouncement amends Topic 350 to increase the operability of the recognition guidance considering different methods of software development.	Effective for annual periods beginning after December 15, 2027, and interim periods within those annual reporting periods. Early adoption is permitted.	The Company will adopt and apply the guidance as prescribed by this ASU to internal-use software costs that occur after the effective date. We are currently reviewing the impact of the adoption on our consolidated financial information.
ASU 2025-09 "Derivatives and Hedging" (Topic 815): Hedge Accounting Improvements.	This pronouncement introduces targeted improvements to more closely align hedge accounting with the economics of an entity's risk management activities.	Effective for annual reporting periods beginning after December 15, 2026, and interim periods within those annual reporting periods. Early adoption is permitted.	The Company will adopt and apply the guidance as prescribed by this ASU to derivatives and hedge accounting that occur after the effective date. We are currently assessing the impact of the adoption on our consolidated financial statements and related disclosures.
ASU 2025-11 "Interim Reporting" (Topic 270): Narrow-Scope Improvements.	This pronouncement amends Topic 270 to provide additional guidance on what disclosures should be provided in interim reporting periods and adds a principle that requires entities to disclose events since the end of the last annual reporting period that have a material impact on the entity.	Effective for interim reporting periods within annual reporting periods beginning after December 15, 2027. This ASU can be applied either prospectively or retrospectively to any or all prior periods presented in the financial statements. Early adoption is permitted.	The Company will adopt and apply the guidance as prescribed by this ASU to interim reporting that occurs after the effective date. We do not expect this to materially affect our consolidated financial statements and related disclosures.
ASU 2026-02 "Environmental Credits and Environmental Credit Obligations" (Topic 818).	This pronouncement amends Topic 818 to improve the financial accounting for and disclosure of environmental credits and environmental credit obligations. The ASU provides guidance on the recognition, measurement, presentation, and disclosure of environmental credits and related obligations.	Effective for annual reporting periods beginning after December 15, 2027, and interim reporting periods within those annual reporting periods. This ASU requires adoption on a retrospective basis through a cumulative-effect adjustment to the opening balance of retained earnings. Early adoption is permitted.	The Company will adopt and apply the guidance as prescribed by this ASU to environmental credits recognized after the effective date. We are currently evaluating the impact of the accounting standards on our consolidated financial statements and related disclosures.

NOTE 3 - REVENUE RECOGNITION

We disaggregate our revenue from contracts with customers for our Installation segment by end market and product, as we believe it best depicts how the nature, amount, timing and uncertainty of our revenue and cash flows are affected by economic factors. Revenues for distribution and manufacturing operations are included in the Other category and are presented net of

Contract Assets and Liabilities

Our contract assets consist of unbilled amounts typically resulting from sales under contracts when the cost-to-cost method of revenue recognition is utilized and revenue recognized, based on costs incurred, exceeds the amount billed to the customer. Our contract assets are recorded in other current assets in our Condensed Consolidated Balance Sheets. Our contract liabilities consist of customer deposits and billings in excess of revenue recognized, based on costs incurred and are included in other current liabilities in our Condensed Consolidated Balance Sheets.

Contract assets and liabilities related to our uncompleted contracts and customer deposits were as follows (in millions):

	June 30, 2026	December 31, 2025
Contract assets	\$ 32.9	\$ 27.3
Contract liabilities	(24.3)	(20.5)

Uncompleted contracts were as follows (in millions):

	June 30, 2026	December 31, 2025
Costs incurred on uncompleted contracts	\$ 236.8	\$ 213.7
Estimated earnings	181.9	158.5
Total	418.7	372.2
Less: Billings to date	400.4	355.5
Net under billings	\$ 18.3	\$ 16.7

INSTALLED BUILDING PRODUCTS, INC.

Net under billings were as follows (in millions):

	June 30, 2026	December 31, 2025
Costs and estimated earnings in excess of billings on uncompleted contracts (contract assets)	\$ 32.9	\$ 27.3
Billings in excess of costs and estimated earnings on uncompleted contracts (contract liabilities)	(14.6)	(10.6)
Net under billings	<u>\$ 18.3</u>	<u>\$ 16.7</u>

The difference between contract assets and contract liabilities as of June 30, 2026 compared to December 31, 2025 is primarily the result of timing differences between our performance of obligations under contracts and customer payments and billings. During the three and six months ended June 30, 2026, we recognized \$1.8 million and \$19.1 million of revenue that was included in the contract liability balance at December 31, 2025. We did not recognize any impairment losses on our contract assets during the three and six months ended June 30, 2026 or 2025.

Remaining performance obligations represent the transaction price of contracts for which work has not been performed and excludes unexercised contract options and potential modifications. As of June 30, 2026, the aggregate amount of the transaction price allocated to remaining uncompleted contracts was \$170.8 million. We expect to satisfy remaining performance obligations and recognize revenue on substantially all of these uncompleted contracts over the next 18 months.

NOTE 4 - CREDIT LOSSES

Our expected loss allowance methodology for accounts receivable is developed using historical experience, present economic conditions and other factors management considers relevant to estimate expected credit losses. We also perform ongoing evaluations of creditworthiness of our existing and potential customers.

Changes in our allowance for credit losses were as follows (in millions):

Balance as of January 1, 2026	\$ 13.9
Current period provision	3.9
Recoveries collected and additions	0.2
Amounts written off	(2.9)
Balance as of June 30, 2026	<u>\$ 15.1</u>

NOTE 5 - CASH AND CASH EQUIVALENTS

Cash and cash equivalents include money market funds which are highly liquid instruments with insignificant interest rate risk and original or remaining maturities of three months or less at the time of purchase. These money market funds amounted to approximately \$312.3 million and \$278.8 million as of June 30, 2026 and December 31, 2025, respectively. See Note 9, Fair Value Measurements, for additional information.

NOTE 6 - GOODWILL AND INTANGIBLES

Goodwill

The change in carrying amount of goodwill by reporting segment was as follows (in millions):

	Installation	Other	Consolidated
Goodwill (gross) - January 1, 2026	\$ 409.7	\$ 110.7	\$ 520.4
Business combinations	18.7	—	18.7

Goodwill (net) - June 30, 2026	<u>\$ 359.1</u>	<u>\$ 110.7</u>	<u>\$ 469.8</u>

We test goodwill for impairment annually during the fourth quarter of our fiscal year or earlier if there is an impairment indicator. The accumulated impairment losses included within the above table were all associated with the Installation segment and substantially all of the impairment losses were recorded prior to the year ended December 31, 2010.

Intangibles, net

The following table provides the gross carrying amount, accumulated amortization and net book value for each major class of intangibles (in millions):

5.625% Senior Notes due 2034

In January 2026, we issued \$500.0 million in aggregate principal amount of 5.625% senior unsecured notes (the "2034 Senior Notes"). The 2034 Senior Notes will mature on February 1, 2034 and interest will accrue at a rate of 5.625% per annum from the date of original issuance and be payable semi-annually in cash in arrears on February 1 and August 1 of each year, commencing on August 1, 2026. The net proceeds from the 2034 Senior Notes offering were approximately \$492.4 million after deducting fees and offering expenses. We used approximately \$308.2 million of the net proceeds to redeem the outstanding principal and accrued interest on our 5.75% senior unsecured notes due 2028 (the "2028 Senior Notes" and, together with the 2034 Senior Notes, the "Senior Notes"). The remaining net proceeds will be used for general corporate purposes.

The indenture covering the 2034 Senior Notes contains restrictive covenants that, among other things, limit the ability of the Company and certain of our subsidiaries (subject to certain exceptions) to: (i) pay dividends on, redeem or repurchase stock; (ii) prepay subordinated debt; (iii) apply net proceeds from certain asset sales; (iv) engage in transactions with affiliates; (v) merge, consolidate or sell substantially all of its assets; and (vi) pay dividends and make other distributions from subsidiaries.

Asset-based Lending Credit Agreement Amendment

In January 2026, we amended and extended the term of our asset-based lending credit agreement (the "ABL Credit Agreement"). The ABL Credit Agreement transaction increased the commitment under the asset-based lending credit facility (the "ABL Revolver") from \$250.0 million to \$375.0 million and extended the maturity date to January 21, 2031. Terms include a springing maturity 91 days ahead of the maturity date of any material indebtedness.

The ABL Revolver now bears interest at either the Secured Overnight Financing Rate ("Term SOFR") or the base rate, at our election, plus a margin of 1.00% or 1.25% per annum in the case of Term SOFR advances or 0.00% or 0.25% per annum in the case of base rate loans (in each case based on a measure of availability under the ABL Credit Agreement). The ABL Credit

INSTALLED BUILDING PRODUCTS, INC.

Agreement contains a financial covenant requiring the satisfaction of a minimum of fixed charge coverage ratio of 1.0x in the event that we do not meet a minimum measure of availability under the ABL Revolver.

The ABL Revolver also provides incremental revolving credit facility commitments of up to \$105.0 million. The ABL Revolver also allows for the issuance of letters of credit of up to \$100.0 million in aggregate and borrowing of swingline loans of up to \$50.0 million in aggregate. Including outstanding letters of credit, our remaining availability under the ABL Revolver as of June 30, 2026 was \$372.1 million.

NOTE 8 - LEASES

We lease various assets in the ordinary course of business as follows: warehouses to store our materials and perform staging activities for certain products we install, various office spaces for selling and administrative activities to support our business, and certain vehicles and equipment to facilitate our operations, including, but not limited to, trucks, forklifts and office equipment.

NOTE 9 - FAIR VALUE MEASUREMENTS

Assets and Liabilities Measured at Fair Value on a Recurring Basis

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. During the periods presented, there were no transfers between fair value hierarchical levels.

Assets Measured at Fair Value on a Nonrecurring Basis

Certain assets, specifically other intangible and long-lived assets, are measured at fair value on a nonrecurring basis in periods subsequent to initial recognition. Assets measured at fair value on a nonrecurring basis as of June 30, 2026 and December 31, 2025 are categorized based on the lowest level of significant input to the valuation. The assets are measured at fair value when our impairment assessment indicates a carrying value for each of the assets in excess of the asset's estimated fair value. Undiscounted cash flows, a Level 3 input, are utilized in determining estimated fair values. During the three and six months ended June 30, 2026 and 2025, we did not record any impairments on these assets required to be measured at fair value on a nonrecurring basis.

Estimated Fair Value of Financial Instruments

Accounts receivable, accounts payable and accrued liabilities as of June 30, 2026 and December 31, 2025 approximate fair value due to the short-term maturities of these financial instruments. The carrying amounts of certain long-term debt, including the Term Loan and ABL Revolver as of June 30, 2026 and December 31, 2025, approximate fair value due to the variable rate nature of the agreements. The carrying amounts of our operating lease right-of-use assets and the obligations associated with our operating and finance leases as well as our vehicle and equipment notes approximate fair value as of June 30, 2026 and December 31, 2025. All debt classifications represent Level 2 fair value measurements. Derivative financial instruments are measured at fair value based on observable market information and appropriate valuation methods.

Contingent consideration liabilities arise from future earnout payments to the sellers associated with certain acquisitions and are based on predetermined calculations of certain future results. These future payments are estimated by considering various factors, including business risk and projections. The contingent consideration liabilities are measured at fair value by discounting estimated future payments, calculated based on a weighted average of various future forecast scenarios, to their net present value.

The fair values of financial assets and liabilities that are recorded at fair value in the Condensed Consolidated Balance Sheets and not described above were as follows (in millions):

	As of June 30, 2026				As of December 31, 2025

Fair value adjustments		(0.5)
Accretion in value		0.1
Contingent consideration liability - June 30, 2026	\$	1.9

The carrying value and associated fair value of financial liabilities that are not recorded at fair value in the Condensed Consolidated Balance Sheets and not described above include our Senior Notes. To estimate the fair value of our Senior Notes, we utilized third-party quotes which are derived all or in part from model prices, external sources or market prices. The Senior Notes represent a Level 2 fair value measurement and are as follows (in millions):

NOTE 10 - INFORMATION ON SEGMENTS

Our Chief Executive Officer is our Chief Operating Decision Maker ("CODM") who reviews financial information for each of our three operating segments, consisting of Installation, Distribution and Manufacturing, for the purpose of assessing business performance, managing the business and allocating resources.

Our Installation operating segment represents the majority of our net revenue and gross profit and forms our one reportable segment. This operating segment represents the service-based installation of insulation and complementary building products in the residential new construction, repair and remodel and commercial construction end markets from our national network of branch locations. These branch locations have similar economic and operating characteristics including the nature of products and services offered, operating procedures and risks, customer bases, employee incentives, material procurement and shared corporate resources which led us to conclude that they combine to form one operating segment.

The Other category reported below reflects the operations of our two remaining operating segments, Distribution and Manufacturing, which do not meet the quantitative thresholds for separate reporting. Our Distribution operating segment includes our distribution businesses that sell insulation, gutters and accessories primarily to installers of these products who operate in multiple end markets. Our Manufacturing operating segment consists of our manufacturing operations which produce cellulose insulation, asphalt fibers, industrial fibers and tempered glass products to sell to distributors and installers of these products.

The Installation reportable segment includes substantially all of our net revenue from services while net revenue included in the Other category includes substantially all of our net revenue from sales of products. The intercompany sales from the Other category to the Installation reportable segment include a profit margin while our Installation segment records these transactions at cost. These transactions are shown in the reconciliation of revenue and segment gross profit below.

The key metrics used by our CODM to assess performance, review results and allocate resources of our operating segments are revenue and segment gross profit. Our CODM evaluates performance through reviews of revenue and segment gross profit to monitor budget versus actual results, which informs resource allocation and management decisions. We define segment gross profit as revenue less cost of sales, excluding depreciation and amortization. We do not report depreciation, amortization, operating expenses, other expense, net or total assets by segment because our CODM does not regularly receive or use this

NOTE 11 - DERIVATIVES AND HEDGING ACTIVITIES

Cash Flow Hedges of Interest Rate Risk

Our purpose for using interest rate derivatives is to add stability to interest expense and to manage our exposure to interest rate movements. During the six months ended June 30, 2026, we used interest rate swaps to hedge the variable cash flows associated with existing variable-rate debt. Interest rate swaps designated as cash flow hedges involve the receipt of variable amounts from a counterparty in exchange for making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. We do not use derivatives for trading or speculative purposes and we currently do not have any derivatives that are not designated as hedges. As of June 30, 2026, we have not posted any collateral related to these agreements.

INSTALLED BUILDING PRODUCTS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

As of June 30, 2026 and December 31, 2025, we had the following interest rate swap derivatives (notional amounts in millions):

Effective Date	Notional Amount	Fixed Rate	Maturity Date
December 31, 2025	300.0	3.06 %	December 14, 2028
December 31, 2025	100.0	2.93 %	December 14, 2028

As of June 30, 2026, our two active interest rate swaps serve to hedge \$400.0 million of the variable cash flows on our variable rate Term Loan through December 14, 2028. The assets associated with these interest rate swaps are included in other current assets and other non-current assets on the Condensed Consolidated Balance Sheets at their fair value amounts as described in Note 9, Fair Value Measurements.

Three of our amended interest rate swaps that had original maturity dates of April 15, 2030 and December 15, 2028 matured on December 31, 2025. The unrealized gains included in accumulated other comprehensive income associated with the July 2022 amendment of these interest rate swaps will be amortized as a decrease to interest expense, net through their original maturity dates. Accordingly, for each of the three months ended June 30, 2026 and 2025, we amortized \$1.8 million, respectively, and for each of the six months ended June 30, 2026 and 2025, we amortized \$3.5 million, respectively, of the remaining unrealized gains as a decrease to interest expense, net.

Additionally, due to the off-market terms at inception of these matured interest rate swaps, we amortized \$1.8 million and \$3.7 million, respectively, of the other-than-insignificant financing element during the three and six months ended June 30, 2025 as an increase to interest expense, net. During the three and six months ended June 30, 2025, we amortized \$0.2 million and \$1.2 million, respectively, of the remaining unrealized losses associated with the August 2020 terminated swaps as an increase to interest expense, net. All unrealized losses were fully amortized as of April 15, 2025, and the other-than-insignificant financing element was fully amortized as of December 31, 2025.

The changes in the fair value of derivatives designated, and that qualify, as cash flow hedges are recorded in other comprehensive income (loss), net of tax on the Condensed Consolidated Statements of Operations and Comprehensive Income and in accumulated other comprehensive income on the Condensed Consolidated Balance Sheets and subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. We had no such changes during the six months ended June 30, 2026 and 2025.

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense, net as interest payments are made on our variable-rate debt, and as our unrealized gains from swap amendments are amortized. Over the next twelve months, we estimate that an additional \$10.6 million will be reclassified as a decrease to interest expense, net.

The following table summarizes amounts recorded to interest expense, net included in the Condensed Consolidated Statements of Operations and Comprehensive Income related to our interest rate swaps (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025

Accumulated other comprehensive income

The change in accumulated other comprehensive income related to our interest rate derivatives, net of taxes, was as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Accumulated gain at beginning of period	\$ 22.4	\$ 29.7	\$ 22.1	\$ 35.0
Unrealized gain (loss) in fair value of interest rate derivatives	2.3	(4.3)	3.9	(10.4)
Reclassifications of realized net (gains) losses to earnings	(1.3)	0.2	(2.6)	1.0
Accumulated gain at end of period	<u>\$ 23.4</u>	<u>\$ 25.6</u>	<u>\$ 23.4</u>	<u>\$ 25.6</u>

The reclassifications of realized net (gains) losses to earnings in the above table are recorded within interest expense, net.

Share repurchases

During the three months ended June 30, 2026, we repurchased approximately 365 thousand shares of our common stock with an aggregate price of approximately \$76.2 million, or \$208.66 price per share. Repurchases during the six months ended June 30, 2026 amounted to 456 thousand shares of our common stock with an aggregate price of approximately \$101.7 million, or \$222.97 average price per share. The effect of these treasury shares in reducing the number of common shares outstanding is reflected in our earnings per share calculation. During the three months ended June 30, 2025, we repurchased 300 thousand shares of our common stock with an aggregate price of approximately \$49.2 million, or \$163.86 price per share. Repurchases during the six months ended June 30, 2025 amounted to 500 thousand shares of our common stock with an aggregate price of approximately \$83.5 million, or \$166.90 average price per share.

On February 26, 2026, we announced that our board of directors authorized a new stock repurchase program that allows for the repurchase of up to \$500.0 million of our outstanding common stock. The new program replaces the previous program and is in effect through March 1, 2027.

Dividends

During the six months ended June 30, 2026, we declared and paid the following cash dividends (amount declared and amount paid in millions):

Declaration Date	Record Date	Payment Date	Dividend Per Share	Amount Declared	Amount Paid
2/26/2026	3/13/2026	3/31/2026	\$ 1.80	\$ 48.7	\$ 48.3
2/26/2026	3/13/2026	3/31/2026	0.39	10.5	10.4
5/7/2026	6/15/2026	6/30/2026	0.39	10.4	10.4

During the six months ended June 30, 2025, we declared and paid the following cash dividends (amount declared and amount paid in millions):

Declaration Date	Record Date	Payment Date	Dividend Per Share	Amount Declared	Amount Paid
2/27/2025	3/14/2025	3/31/2025	\$ 1.70	\$ 47.1	\$ 46.7
2/27/2025	3/14/2025	3/31/2025	0.37	10.2	10.1
5/8/2025	6/15/2025	6/30/2025	0.37	10.1	10.1

The amount of dividends declared may vary from the amount of dividends paid in a period due to the vesting of restricted stock awards and performance share awards, which accrue dividend equivalent rights that are paid when the award vests. During the six months ended June 30, 2026 and 2025, we also paid \$0.7 million and \$0.8 million, respectively, in accrued dividends not included in the table above related to the vesting of these awards. The payment of future dividends will be at the discretion of

our board of directors and will depend on our future earnings, capital requirements, financial condition, future prospects, results of operations, contractual restrictions, legal requirements, and other factors deemed relevant by our board of directors.

NOTE 13 - EMPLOYEE BENEFITS

Healthcare

We participate in multiple healthcare plans, the largest of which is partially self-funded with an insurance company paying benefits in excess of stop loss limits per individual/family. Our healthcare benefit expense (net of employee contributions) was \$11.7 million and \$8.8 million for the three months ended June 30, 2026 and 2025, respectively, and \$22.6 million and \$16.7 million for the six months ended June 30, 2026 and 2025, respectively. An accrual for estimated healthcare claims incurred but not reported ("IBNR") is included within accrued compensation on the Condensed Consolidated Balance Sheets and was \$5.0 million and \$4.9 million as of June 30, 2026 and December 31, 2025, respectively.

Workers' Compensation

Workers' compensation expense totaled \$3.1 million and \$5.4 million for the three months ended June 30, 2026 and 2025, respectively, and \$9.0 million and \$11.8 million for six months ended June 30, 2026 and 2025, respectively.

Workers' compensation known claims and IBNR reserves included on the Condensed Consolidated Balance Sheets were as follows (in millions):

	June 30, 2026	December 31, 2025
Included in other current liabilities	\$ 9.6	\$ 10.4
Included in other long-term liabilities	20.7	20.5
	<u>\$ 30.3</u>	<u>\$ 30.9</u>

We also had insurance receivables included on the Condensed Consolidated Balance Sheets that, in aggregate, offset equal liabilities included within the reserve amounts noted above and were as follows (in millions):

	June 30, 2026	December 31, 2025
Included in other non-current assets	\$ 5.5	\$ 4.8

Retirement Plans

We participate in multiple 401(k) plans, whereby we provide a matching contribution of wages deferred by employees and can also make discretionary contributions to each plan. Certain plans allow for discretionary employer contributions only. These plans cover substantially all our eligible employees. We recognized 401(k) plan expenses of \$1.0 million and \$0.9 million for the three months ended June 30, 2026 and 2025, respectively, and \$2.1 million and \$2.0 million for the six months ended June 30, 2026 and 2025, respectively. These expenses are included in administrative expenses on the accompanying Condensed Consolidated Statements of Operations and Comprehensive Income.

Multiemployer Pension Plans

We participate in various multiemployer pension plans under collective bargaining agreements in Washington, Oregon, California and Illinois with other companies in the construction industry. These plans cover our union-represented employees and contributions to these plans are expensed as incurred. These plans generally provide for retirement, death and/or termination benefits for eligible employees within the applicable collective bargaining units, based on specific eligibility/participation requirements, vesting periods and benefit formulas. We do not participate in any multiemployer pension plans that are considered to be individually significant.

Share-Based Compensation

Common Stock Awards

We periodically grant shares of our common stock to non-employee members of our board of directors and our employees. During the three and six months ended June 30, 2026 and 2025, we granted approximately six thousand and five thousand shares, respectively, under our 2023 Omnibus Incentive Plan to non-employee members of our board of directors.

In addition, we granted approximately 29 thousand and 30 thousand shares of our common stock to employees during the three and six months ended June 30, 2026, respectively, and 45 thousand and 63 thousand during the three and six months ended June 30, 2025, respectively, exclusive of the issuance of liability-based awards disclosed below.

Employees – Performance-Based Stock Awards

During the six months ended June 30, 2026, we issued approximately 43 thousand shares of our common stock to certain officers, which vest in two equal installments on each of April 20, 2027 and April 20, 2028. In addition, during the six months ended June 30, 2026, we established, and our board of directors approved, performance-based targets in connection with common stock awards to be issued to certain officers in 2027 contingent upon achievement of these targets.

In addition, there are various performance-based bonus plans for certain employees to be issued through the 2029 performance period that are accounted for as liability-based awards since they represent a predominantly-fixed monetary amount that will be settled with a variable number of common shares contingent upon achievement of certain performance targets. During the three and six months ended June 30, 2026, we issued approximately three thousand and five thousand shares of our common stock, respectively, to certain employees under one of the bonus plans that are scheduled to vest in April 2030. In addition, during the six months ended June 30, 2026, we issued approximately eight thousand shares of our common stock under a bonus plan that vested in the second quarter of 2026. During the six months ended June 30, 2025, we issued approximately 11 thousand shares of our common stock under a bonus plan which vested in the second quarter of 2025.

Employees – Performance-Based Restricted Stock Units

During 2025, we established, and our board of directors approved, performance-based restricted stock units in connection with common stock awards which were issued to certain employees in 2026 based upon achievement of a performance target. In addition, during the six months ended June 30, 2026, we established, and our board of directors approved, performance-based restricted stock units in connection with common stock awards to be issued to certain employees in 2027 based upon achievement of a performance target. These units will be accounted for as equity-based awards that will be settled with a fixed number of common shares.

Share-Based Compensation Summary

Amounts and changes for each category of equity-based award were as follows:

	Common Stock Awards		Performance-Based Stock Awards		Performance-Based Restricted Stock Units

Performance-Based Restricted Stock Units	0.5	0.4	1.0	0.9
	<u>\$ 6.2</u>	<u>\$ 5.3</u>	<u>\$ 11.9</u>	<u>\$ 11.2</u>

We recorded the following stock compensation expense by income statement category (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Cost of sales	\$ 0.3	\$ 0.2	\$ 0.6	\$ 0.5
Selling	0.2	0.2	0.4	0.3
Administrative	5.7	4.9	10.9	10.4
	<u>\$ 6.2</u>	<u>\$ 5.3</u>	<u>\$ 11.9</u>	<u>\$ 11.2</u>

Administrative stock compensation expense includes all stock compensation earned by our administrative personnel, while cost of sales and selling stock compensation represent all stock compensation earned by our installation and sales employees, respectively.

Unrecognized share-based compensation expense related to unvested awards was as follows (in millions):

	As of June 30, 2026	
	Unrecognized Compensation Expense on Unvested Awards	Weighted Average Remaining Vesting Period
Common Stock Awards	\$ 14.7	2.2 years
Performance-Based Stock Awards	12.5	2.0 years
Performance-Based Restricted Stock Units	1.7	0.8 years
Total unrecognized compensation expense related to unvested awards	<u>\$ 28.9</u>	

Total unrecognized compensation expense is subject to future adjustments for forfeitures. This expense is expected to be recognized over the remaining weighted-average period shown above on a straight-line basis except for the Performance-Based Stock Awards which uses the graded-vesting method. Shares forfeited are returned as treasury shares and available for future issuances.

During the six months ended June 30, 2026 and 2025, our employees surrendered approximately 42 thousand and 53 thousand shares of our common stock, respectively, to satisfy tax withholding obligations arising in connection with the vesting of common stock awards issued under our 2023 Omnibus Incentive Plans.

As of June 30, 2026, approximately 1.6 million of the 2.1 million shares of common stock authorized for issuance were available for issuance under the 2023 Omnibus Incentive Plan.

NOTE 14 - INCOME TAXES

Our provision for income taxes as a percentage of pretax earnings is based on a current estimate of the annual effective income tax rate adjusted to reflect the impact of discrete items.

During the three and six months ended June 30, 2026, our effective tax rates were 23.7% and 24.6%, respectively. These rates for the three and six months ended June 30, 2026 were impacted favorably by recognition of windfall tax benefits resulting from equity vesting. During the three and six months ended June 30, 2025, our effective tax rates were 26.1% and 26.0%,

INSTALLED BUILDING PRODUCTS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

respectively. The rates for each of the three and six months ended June 30, 2026 and 2025 were based on estimated annual effective tax rates for federal, state and local tax expense.

NOTE 15 - RELATED PARTY TRANSACTIONS

We sell installation services to other companies related to us through common or affiliated ownership and/or board of directors and/or management relationships. We also purchase services and materials and pay rent to companies with common or affiliated ownership. We relocated our corporate headquarters in the second quarter of 2026 to a location that is leased from a related party.

We lease certain other facilities from related parties. See Note 8, Leases, for future minimum lease payments to be paid to these related parties.

The amount of sales to common or related parties as well as the purchases from and rent expense paid to common or related parties were as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Sales	\$ 6.7	\$ 6.4	\$ 11.8	\$ 11.3
Purchases	0.9	1.0	1.8	1.7
Rent	0.5	0.3	0.8	0.6

The amount of receivables due from related parties was as follows (in millions):

	June 30, 2026	December 31, 2025
Accounts receivable from related parties	\$ 1.8	\$ 1.6

M/I Homes, Inc., a customer whose Chairman, Chief Executive Officer and President serves on our board of directors, accounted for \$1.7 million and \$1.5 million of the related party accounts receivable balances as of June 30, 2026 and December 31, 2025, respectively. Additionally, M/I Homes, Inc. accounted for a significant portion of our related party sales during the three and six months ended June 30, 2026 and 2025.

NOTE 16 - COMMITMENTS AND CONTINGENCIES

Leases

See Note 8, Leases, for further information regarding our lease commitments.

Other Commitments and Contingencies

From time to time, various claims and litigation are asserted or commenced against us principally arising from contractual matters and personnel and employment disputes. In determining loss contingencies, management considers the likelihood of loss as well as the ability to reasonably estimate the amount of such loss or liability. An estimated loss is recorded when it is considered probable that such a liability has been incurred and when the amount of loss can be reasonably estimated. As litigation is subject to inherent uncertainties, we cannot be certain that we will prevail in these matters. However, we do not believe that the ultimate outcome of any pending matters will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

We have an agreement with one of our suppliers to purchase a portion of the materials we utilize in our business with variable pricing. This agreement is effective March 31, 2023 through May 15, 2026 with a purchase obligation of 12.0 million pounds for the period ending May 15, 2024, 14.4 million pounds for the period ending May 15, 2025 and 17.3 million pounds for the period ending August 31, 2026. In 2025, we entered into an amendment which reduced our 17.3 million pounds commitment to 12.3 million pounds and amended the period commitment to May 15, 2026. In May 2026, we entered into an amendment which extended the period commitment from May 15, 2026 to August 31, 2026. Through June 30, 2026, we purchased approximately 11.4 million pounds of materials under the amended agreement for the period ending August 31, 2026.

We also have a contract with a supplier to purchase various products we employ in our business with fixed rate pricing. The agreement is effective January 1, 2025 through December 31, 2027 with a purchase obligation of 8.0 million pounds for each of the periods ending December 31, 2025, 2026 and 2027, and a total minimum commitment of \$10.8 million. During the six months ended June 30, 2026, we purchased approximately 4.7 million pounds of materials under this agreement for the period ending December 31, 2026.

In addition, we have a 5 year purchase agreement with one of our suppliers to purchase products with variable pricing terms. The volume commitment is 89.1 million pounds in 2026 and is subject to conditional adjustments in future periods beyond 2026 based upon certain contingencies. During the six months ended June 30, 2026, we purchased approximately 46.1 million pounds of materials under this agreement for the period ending December 31, 2026.

NOTE 17 - BUSINESS COMBINATIONS

As part of our ongoing strategy to expand geographically and increase market share in certain markets, as well as diversify our products and end markets, we completed five business combinations and four insignificant bolt-on acquisitions merged into existing operations during the six months ended June 30, 2026 and two business combinations and two insignificant bolt-on acquisition merged into an existing operation during the six months ended June 30, 2025. The largest of these acquisitions were Thermo-Tech Mechanical Insulation, Inc. ("Thermo-Tech") in February 2026 and Diamond Energy Systems, Inc. ("Diamond Energy") in May 2026.

Below is a summary of acquisitions in aggregate by year, including revenue and net (loss) income since date of acquisition shown for the year of acquisition. Net income includes amortization and taxes when appropriate.

For the three and six months ended June 30, 2026 (in millions):

2026 Acquisitions	Date	Acquisition Type	Cash Paid	Seller Obligations	Total Purchase Price	Three months ended June 30, 2026		Six months ended June 30, 2026

For the three and six months ended June 30, 2025 (in millions):

2025 Acquisitions	Date	Acquisition Type	Cash Paid	Seller Obligations	Total Purchase Price	Three months ended June 30, 2025		Six months ended June 30, 2025	
						Revenue	Net Income	Revenue	Net Income
Other	Various	Asset	\$ 11.3	\$ 0.6	\$ 11.9	\$ 1.7	\$ 0.1	\$ 1.9	\$ 0.1

Acquisition-related costs recorded within administrative expenses on the Condensed Consolidated Statements of Operations and Comprehensive Income amounted to \$0.7 million and \$0.5 million for the three months ended June 30, 2026 and 2025, respectively, and \$1.7 million and \$1.0 million for the six months ended June 30, 2026 and 2025, respectively.

The goodwill recognized in conjunction with these business combinations represents the excess cost of the acquired entity over the net amount assigned to assets acquired and liabilities assumed (including the identifiable intangible assets). The goodwill recognized for Thermo-Tech reflects the value of its mechanical insulation services, supplier relationships, commercial market expansion and other synergies that are expected to be realized from the acquisition. The goodwill recognized for Diamond Energy reflects the advantage of its industrial and commercial mechanical insulation solutions, key regional markets, experienced workforce, technical expertise and other benefits that are expected to be achieved from the acquisition. We expect to deduct approximately \$17.1 million of goodwill for tax purposes as a result of 2026 acquisitions.

Purchase Price Allocations

The estimated fair values of the assets acquired and liabilities assumed for the acquisitions, as well as total purchase prices and cash paid, approximated the following (in millions):

	Six months ended June 30, 2026				Six months ended June 30, 2025
	Thermo-Tech	Diamond Energy	Other	Total	Other
Estimated fair values:					
Accounts receivable	\$ 3.0	\$ 1.9	\$ 0.3	\$ 5.2	\$ —

Less seller obligations	1.5	2.0	1.4	4.9	0.6
Cash paid	\$ 18.0	\$ 18.9	\$ 10.8	\$ 47.7	\$ 11.3

Contingent consideration, non-compete agreements and/or amounts based on working capital calculations are included as “seller obligations” in the above table or within “fair value of assets acquired” if subsequently paid during the period presented. Contingent consideration payments consist primarily of earnouts based on performance that are recorded at fair value at the time of acquisition. When these payments are expected to be made over one year from the acquisition date, the contingent consideration is discounted to net present value of future payments based on a weighted average of various future forecast scenarios.

Further adjustments to the allocation for each acquisition still under its measurement period are expected as third-party or internal valuations are finalized, certain tax aspects of the transaction are completed and customary post-closing reviews are

INSTALLED BUILDING PRODUCTS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

concluded during the measurement period attributable to each individual business combination. As a result, adjustments to the fair value of assets acquired, and in some cases total purchase price, have been made to certain business combinations since the date of acquisition and future adjustments may be made through the end of each measurement period. Any acquisition acquired after June 30, 2025 is deemed to be within the measurement period and its purchase price considered preliminary.

Goodwill and intangibles per the above table may not agree to the total gross increase of these assets as shown in Note 6, Goodwill and Intangibles, during each of the six months ended June 30, 2026 and 2025 due to adjustments to goodwill for the allocation of certain acquisitions still under measurement as well as other immaterial intangible assets added during the ordinary course of business. All acquisitions during the six months ended June 30, 2026 and 2025 had their respective goodwill assigned to our Installation operating segment.

Estimates of acquired intangible assets related to the acquisitions are as follows (in millions):

Pro Forma Information

The unaudited pro forma information for the combined results of the Company has been prepared as if the 2026 acquisitions had taken place on January 1, 2025 and the 2025 acquisitions had taken place on January 1, 2024. The unaudited pro forma information is not necessarily indicative of the results that we would have achieved had the transactions actually taken place on January 1, 2025 and 2024, respectively, and the unaudited pro forma information does not purport to be indicative of future financial operating results (in millions, except per share data):

	Unaudited pro forma for the three months ended June 30,		Unaudited pro forma for the six months ended June 30,	
	2026	2025	2026	2025
Net revenue	\$ 779.5	\$ 783.1	\$ 1,444.8	\$ 1,489.3
Net income	64.8	70.6	99.3	117.4
Basic net income per share	2.43	2.58	3.72	4.28
Diluted net income per share	2.43	2.58	3.70	4.26

Unaudited pro forma net income reflects additional intangible asset amortization expense of approximately \$0.4 million and \$1.5 million for the three months ended June 30, 2026 and 2025, respectively, and \$1.1 million and \$3.2 million for the six months ended June 30, 2026 and 2025, respectively, as well as additional income tax (benefit) expense of approximately \$(17) thousand and \$0.5 million for the three months ended June 30, 2026 and 2025, respectively, and \$(0.1) million and \$1.0 million for the six months ended June 30, 2026 and 2025, respectively, that would have been recorded had the 2026 acquisitions taken place on January 1, 2025 and the 2025 acquisitions taken place on January 1, 2024.

NOTE 18 - INCOME PER COMMON SHARE

Basic net income per common share is calculated by dividing net income by the weighted average shares outstanding during the period, without consideration for common stock equivalents.

Diluted net income per common share is calculated by adjusting weighted average shares outstanding for the dilutive effect of common stock equivalents outstanding for the period, determined using the treasury stock method. Potential common stock is included in the diluted income per common share calculation when dilutive. The dilutive effect of outstanding restricted stock

awards after application of the treasury stock method was approximately 77 thousand and 122 thousand shares for the three and six months ended June 30, 2026, respectively, and 81 thousand and 130 thousand shares for the three and six months ended June 30, 2025, respectively. Approximately 10 thousand and six thousand weighted average shares of potential common stock were not included in the calculation of diluted weighted average shares outstanding for the three and six months ended June 30, 2026, respectively, because the effect would have been anti-dilutive. Approximately 17 thousand and eight thousand weighted average shares of potential common stock were not included in the calculation of diluted weighted average shares outstanding for the three and six months ended June 30, 2025, respectively, because the effect would have been anti-dilutive.

NOTE 19 - SUBSEQUENT EVENTS

We announced on August 6, 2026 that our board of directors declared a quarterly dividend, payable on September 30, 2026 to stockholders of record on September 15, 2026, at a rate of 39 cents per share.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our condensed consolidated financial statements and related notes in "Item 1. Financial Statements" of this Quarterly Report on Form 10-Q, as well as our 2025 Form 10-K.

OVERVIEW

We are one of the nation's largest insulation installers for the residential new construction market and are also a diversified installer of complementary building products throughout the United States, including waterproofing, fire-stopping and fireproofing, garage doors, rain gutters, window blinds, shower doors, closet shelving, mirrors and other products. We offer our portfolio of services for new and existing single-family and multi-family residential and commercial building projects in all 48 continental states and the District of Columbia from our national network of over 250 branch locations. During the three months ended June 30, 2026, 91% of our net revenue came from the service-based installation of these products across all of our end markets which forms our Installation operating segment and single reportable segment. In addition, we have regional distribution operations that serve the Midwest, Mountain West, Northeast and Mid-Atlantic regions of the United States, and we operate multiple cellulose insulation manufacturing facilities. We believe our business is well positioned to continue to profitably grow over the long-term due to our strong balance sheet, liquidity and our continuing acquisition strategy.

A large portion of our net revenue comes from the U.S. residential new construction market, which depends upon a number of economic factors, including demographic trends, interest rates, inflation, consumer confidence, employment rates, housing inventory levels and affordability, foreclosure rates, the health of the economy and availability of mortgage financing.

2026 Second Quarter Highlights

Net revenue increased 2.3%, or \$17.5 million to \$777.8 million, while gross profit decreased 0.4% to \$258.9 million during the three months ended June 30, 2026 compared to the same period in 2025. The increase in net revenue was primarily due to a 14.1% increase in commercial end market sales growth and the contribution of our recent acquisitions, partially offset by a decline in Installation job volume in our single-family residential end market. The decrease in gross profit was primarily driven by vehicle-related costs including fuel, insurance and depreciation expense. Gross profit percentage was also impacted by higher sales in our Other category which has a lower gross margin than our Installation segment. Certain net revenue and industry metrics we use to monitor our operations are discussed in the "Key Measures of Performance" section below, and further details regarding results of our various end markets are discussed further in the "Net Revenue, Cost of Sales and Gross Profit" section below.

As of June 30, 2026, we had \$394.5 million of cash and cash equivalents and had not drawn on our revolving line of credit. This strong liquidity position allowed us to return capital to shareholders by increasing our regular quarterly dividend 5% over the second quarter of 2025 to \$0.39 per share, or \$10.4 million in the aggregate. Additionally, we repurchased \$76.2 million of our outstanding common stock during the three months ended June 30, 2026 for a total capital return to shareholders of \$86.6 million.

Key Measures of Performance

We utilize certain net revenue and industry metrics to monitor our operations. Key metrics include total sales growth and same branch growth metrics for our consolidated results, our Installation reportable segment and our Other category consisting of our Distribution and Manufacturing operating segments. We also monitor sales growth for our Installation segment by end market and track volume growth and price/mix growth. Furthermore, we now present additional volume and price/mix growth metrics that include the heavy commercial subset of the commercial end market due to the greater impact of that end market on our revenue and results of operations.

We believe the revenue growth measures are important indicators of how our business is performing, however, we may rely on different metrics in the future. We also utilize gross profit percentage as shown in the following section to monitor our most significant variable costs and to evaluate labor efficiency and success at passing increasing costs of materials to customers.

The following table shows key measures of performance we utilize to evaluate our results:

	Three months ended June 30,		Six months ended June 30,

(1) Same-branch basis represents period-over-period change in sales for branch locations owned greater than 12 months as of each financial statement date.

(2) Calculated based on period-over-period change in sales within our Installation segment and its end markets.

(3) The heavy commercial end market, a subset of our total commercial end market, comprises projects that are much larger than our average installation job. As such, per-job revenue is much larger than the average job in all other end markets.

(4) Calculated as period-over-period change in the number of completed same-branch jobs within our Installation segment for all markets.

(5) Defined as change in the mix of products sold and related pricing changes and calculated as the change in period-over-period average selling price per same-branch jobs within our Installation segment for all markets we serve, multiplied by total current year jobs. The mix of end customer and product would have an impact on the year-over-year price per job.

(6) Calculated based on period-over-period gross sales change, excluding intercompany transactions, in our Other category which consists of our Manufacturing and Distribution operating segments.

(7) We revised this calculation to exclude certain intercompany sales. Percentages in all periods presented conform to this revised method.

(8) U.S. Census Bureau data, as revised.

Net Revenue, Cost of Sales and Gross Profit

The components of gross profit were as follows (in millions):

	Three months ended June 30,			Six months ended June 30,		
	2026	Change	2025	2026	Change	2025
Net revenue	\$ 777.8	2.3 %	\$ 760.3	\$ 1,438.3	(0.5)%	\$ 1,445.1
Cost of sales	518.9	3.7 %	500.4	967.1	0.6 %	961.5
Gross profit	<u>\$ 258.9</u>	<u>(0.4)%</u>	<u>\$ 259.9</u>	<u>\$ 471.2</u>	<u>(2.6)%</u>	<u>\$ 483.6</u>
Gross profit percentage	33.3 %		34.2 %	32.8 %		33.5 %

Net revenue increased during the three months ended June 30, 2026 over the same period in 2025 primarily due to sales growth from our commercial end market and contributions from our recent acquisitions. Our commercial end market sales grew 10.4% on a same branch basis for the three months ended June 30, 2026 over the same period in 2025. Same branch sales from our single-family end market declined 7.2% while same branch sales from our multi-family end market decreased 1.4%, outpacing the 2.8% decline in national multi-family completions. These markets combined for a residential same branch sales decline of 6.1% for the three months ended March 31, 2026 over the same period in 2025. Lastly, sales within our Distribution and Manufacturing businesses increased 50.4% during the three months ended June 30, 2026 which aligns with our strategy to enhance our procurement efforts through vertical integration in select product and end markets.

During the six months ended June 30, 2026, net revenue decreased 0.5% over the same period in 2025 primarily due to the decline in residential job volume.

During the three months ended June 30, 2026, gross profit as a percentage of net revenue decreased as compared to the same period in 2025, primarily due to higher labor costs and other indirect costs from shifts in product and end market mix, increased vehicle costs including fuel, depreciation expense and auto insurance, and increased freight and shipping costs from higher Manufacturing and Distribution activity.

Operating Expenses

Operating expenses were as follows (in millions):

	Three months ended June 30,			Six months ended June 30,		
	2026	Change	2025	2026	Change	2025
Selling	\$ 36.6	2.5 %	\$ 35.7	\$ 70.6	(0.7)%	\$ 71.1
Percentage of total net revenue	4.7 %		4.7 %	4.9 %		4.9 %
Administrative	\$ 117.2	3.6 %	\$ 113.1	\$ 227.4	2.7 %	\$ 221.5
Percentage of total net revenue	15.1 %		14.9 %	15.8 %		15.3 %
Amortization	\$ 10.5	4.0 %	\$ 10.1	\$ 21.0	4.0 %	\$ 20.2
Percentage of total net revenue	1.3 %		1.3 %	1.5 %		1.4 %

Selling

The dollar increase in selling expenses for the three months ended June 30, 2026 compared to 2025 was primarily driven by an increase in selling compensation and increased credit loss expense on higher revenues. Selling expenses for the six months ended June 30, 2026 decreased compared to 2025 primarily due to a decline in commissions on lower revenues. Selling expense as a percentage of sales remained flat during the three and six months ended June 30, 2026 compared to 2025.

Administrative

The dollar increase in administrative expenses for the three and six months ended June 30, 2026 compared to 2025 was primarily due to an increase in medical benefits and liability insurance costs. In addition, facility costs increased due to inflationary pressures and acquisitions. Administrative expenses increased as a percentage of net revenue for the three and six months ended June 30, 2026 compared to 2025 primarily due to inflationary pressures on insurance costs, partially offset by organizational optimization cost savings and lower transaction fees.

Amortization

Amortization expense for the three and six months ended June 30, 2026 compared to 2025 increased primarily due to the acquisition of more finite-lived intangible assets.

Other Expense, Net

Other expense, net was as follows (in millions):

	Three months ended June 30,			Six months ended June 30,		
	2026	Change	2025	2026	Change	2025
Interest expense, net	\$ 10.5	26.5 %	\$ 8.3	\$ 20.8	25.3 %	\$ 16.6
Other (income)	(1.0)	42.9 %	(0.7)	(0.8)	60.0 %	(0.5)
Total other expense, net	\$ 9.5		\$ 7.6	\$ 20.0		\$ 16.1

Interest expense, net increased during the three months ended June 30, 2026 compared to the same period in 2025 primarily due to higher debt levels. For the six months ended June 30, 2026, interest expense, net was also impacted by the write-offs of debt issuance costs resulting from our January 2026 transactions related to the Senior Notes (as defined below). During the three and six months ended June 30, 2026, the increases were partially offset by increased interest income from higher cash balances in interest bearing money market accounts. See Part I, Item 1. Financial Statements, Note 7, Long-Term Debt, for more information on the January 2026 debt transactions.

Income Tax Provision

Income tax provision and effective tax rates were as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Income tax provision	\$ 20.2	\$ 24.4	\$ 32.5	\$ 40.3
Effective tax rate	23.7 %	26.1 %	24.6 %	26.0 %

The effective tax rates for the three and six months ended June 30, 2026 were impacted favorably by recognition of windfall tax benefits resulted from equity vesting. The effective tax rates for the three and six months ended June 30, 2026 and 2025 were based on an estimated annual effective tax rate for federal, state and local tax expense.

Other Comprehensive Income (Loss), Net of Tax

Other comprehensive income (loss), net of tax was as follows (in millions):

	Three months ended June 30,		Six months ended June 30,	
	2026	2025	2026	2025
Net change on cash flow hedges, net of taxes	\$ 1.0	\$ (4.1)	\$ 1.3	\$ (9.4)

During the three and six months ended June 30, 2026, we recorded unrealized gains of \$2.3 million and \$3.9 million, respectively, net of taxes, on our cash flow hedges due to the market's expectations for higher interest rates in the future. During the three and six months ended June 30, 2025, we recorded unrealized losses of \$4.3 million and \$10.4 million, respectively, net of taxes, on our cash flow hedges due to changes in the market's expectations for future long-term interest rates.

During the three and six months ended June 30, 2026, we amortized \$1.8 million and \$3.5 million, respectively, and during the three and six months ended June 30, 2025, we amortized \$0.2 million and \$1.0 million, respectively, of our remaining unrealized gains and losses, net, on our terminated cash flow hedges to interest expense, not including the offsetting tax effects of \$0.5 million and \$0.9 million for the three and six months ended June 30, 2026, respectively, and \$0.1 million and \$0.3 million for the three and six months ended June 30, 2025, respectively.

KEY FACTORS AFFECTING OUR OPERATING RESULTS

Inflation, Housing Affordability and Mortgage Interest Rates

Inflation has affected the economy as a whole since 2022, but began moderating in 2023 as the Federal Reserve took actions to stabilize inflation by raising the federal funds rate multiple times through July 2023. These rate hikes indirectly affected the 30-year fixed rate mortgage average in the United States, resulting in mortgage rates peaking above 7% in recent years. These rate-driven pressures have curtailed housing demand as mortgage financing affordability has been reduced. Inflation rates in 2026 have remained above the 2% stated target, and the Iranian conflict in the Middle East has significantly raised oil prices which could push inflation higher and cause the Federal Reserve to continue to pause rate cuts or institute new rate hikes. While a more accommodating Federal Reserve monetary policy does not directly determine mortgage rates, any easing of the federal funds rate would likely contribute to a downward trend in mortgage rates. We expect to continue to be impacted by the current elevated rates for the remainder of 2026 but anticipate pressures to lessen over time if mortgage rates are further reduced.

In addition, housing affordability is impacted by international trade as certain housing inputs such as lumber are more reliant on imports than domestic production. While we purchase the large majority of the products we install and sell domestically, our business could be impacted if overall home affordability is further reduced by higher material prices due to increased tariffs.

Trends in the Construction Industry

Elevated home prices, high mortgage rates, recent economic uncertainty, subdued consumer sentiment and high new home inventory were the primary contributors to the decline in demand of new homes in the first half of 2026. Activity slowed in the residential homebuilding market as non-seasonally adjusted single-family starts, our largest end market, decreased 5.3% according to the U.S. Census during the six months ended June 30, 2026 compared to the same period in 2025. Employment remains stable and continues to support demand for residential new construction activity despite the affordability concerns and recent economic uncertainty. As a result, while we expect cyclical to continue in the housing industry, we believe the long-term opportunities in our residential and commercial end markets are favorable. Our largest customers are publicly traded homebuilders, and these builders have been able to increase affordability by offering mortgage rate buydowns as incentives to their customers. Regarding the repair and remodel markets, many existing homeowners are locked into low interest mortgages and an aging housing stock exists in many areas of the United States, bolstering demand in this end market.

Cost and Availability of Materials

We typically purchase the materials we use in our business directly from manufacturers. The largest fiberglass manufacturers have cut production capacity during past business cycles which has caused periods of industry-wide supply allocations. While we are not currently experiencing material supply shortages, we could incur such shortages during the remainder of 2026 and beyond if these manufacturers reduce production this year. We also experience price increases from our suppliers from time to time, and we may have more difficulty raising selling prices to offset any material price increases in 2026 if housing demand slows. We could be subject to increased material pricing on some of the complementary building products we install and sell due to tariffs imposed on goods imported from certain foreign nations. The extent of these increases will depend on a variety of factors including the magnitude of each tariff, the extent our vendors pass on the tariffs they incur, and the number of countries subject to tariffs in the future. Additionally, we may be subject to increased shipping and freight costs on inventory if the recent spike in oil prices continues and those costs are passed onto us from our suppliers as we began to see during the most recent quarter. Increased market pricing, regardless of the catalyst, has and could continue to impact our results of operations in 2026, to the extent that price increases cannot be passed on to our customers. We will continue to work with our suppliers to lessen the impact on our margins and our customers to adjust selling prices to offset higher costs as they occur.

Cost of Labor

Our business is labor intensive and the majority of our employees work as installers on local construction sites. We anticipate a slower hiring pace in 2026, but still expect to spend more to hire, train and retain installers to support our business as tight labor availability continues within the construction industry. Our workers' compensation costs also continue to rise as we increase our coverage for additional personnel.

Our employee retention rates remained better than industry averages in the six months ended June 30, 2026. We believe this is a result of our strong culture and the various programs meant to benefit our employees, including our financial wellness plan, emotional well-being coaching, longevity stock compensation plan and comprehensive benefit packages we offer. We also provide assistance from the Installed Building Products Foundation meant to benefit our employees, their families and their communities. While improved retention drives lower costs to recruit and train new employees, resulting in greater installer productivity, these improvements are somewhat offset by the additional costs of these incentives.

LIQUIDITY AND CAPITAL RESOURCES

Our capital resources primarily consist of cash from operations and borrowings under our various debt agreements and capital equipment leases and loans. As of June 30, 2026, we had cash and cash equivalents of \$394.5 million as well as access to \$375.0 million under our asset-based lending credit facility (as defined below), less \$2.9 million of outstanding letters of credit, resulting in total liquidity of \$766.6 million. Liquidity may also be limited in the future by certain cash collateral limitations under our asset-based credit facility (as defined below), depending on the status of our borrowing base availability.

Short-Term Material Cash Requirements

Our primary capital requirements are to fund working capital needs, operating expenses, acquisitions and capital expenditures, to meet debt and leasing principal and interest obligations and to make required income tax payments. We may also use our resources to fund our optional stock repurchase program and pay quarterly and annual dividends. We expect to spend cash and cash equivalents to acquire various companies with at least \$100.0 million in aggregate net revenue each fiscal year. The amount of cash paid for an acquisition is dependent on various factors, including the size and determined value of the business being acquired.

We expect to meet our short-term liquidity requirements primarily through net cash flows from operations, our cash and cash equivalents on hand and borrowings from various lenders under equipment and loan agreements. Additional sources of funds, should we need them, include borrowing capacity under our asset-based lending credit facility (as defined below).

We believe that our cash flows from operations, combined with our current cash levels and available borrowing capacity, will be adequate to support our ongoing operations and to fund our business needs, commitments and contractual obligations for at least the next 12 months as evidenced by our net positive cash flows from operations for the six months ended June 30, 2026. We believe that we have access to additional funds, if needed, through the capital markets to obtain further debt financing under the current market conditions, but we cannot guarantee that such financing will be available on favorable terms, or at all. In the short-term, we expect the seasonal trends we typically experience to return, including higher sales in the spring, summer and fall than in the winter. This could affect the timing of cash collections and payments during the rest of 2026.

Long-Term Material Cash Requirements

Beyond the next twelve months, our principal demands for funds will be to fund working capital needs and operating expenses, to meet principal and interest obligations on our long-term debts and finance leases as they become due or mature, and to make required income tax payments. Additional funds may be spent on acquisitions, stock repurchases, capital improvements and dividend payments, at our discretion.

On a long-term basis, we may refinance existing debt or obtain further debt financing to the extent that our sources of capital are insufficient to meet our operating needs and/or growth strategy.

In "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our 2025 Form 10-K, we disclosed that we had \$1.1 billion aggregate long-term material cash requirements as of December 31, 2025. Our long-term commitments have since changed materially due to the issuance of \$500.0 million in aggregate principal amount of 5.625% senior unsecured notes due 2034 and using a portion of the proceeds to redeem in full the outstanding principal and interest on our \$300.0 million senior unsecured notes due 2028. This transaction reduced the principal payments included in the 2028 known obligations by \$300.0 million and increased the thereafter known obligations by \$500.0 million. The increased principal and extended maturity of the 2034 Senior Notes (as defined below) will also increase the amount of interest we will be required to pay in 2026 and beyond. There were no other material changes to our cash requirements during the period covered by this Quarterly Report on Form 10-Q outside of the normal course of our business. For further information about our debt transactions, see Part I, Item 1. Financial Statements, Note 7, Long-Term Debt.

Sources and Uses of Cash and Related Trends

Working Capital

We carefully manage our working capital and operating expenses. As of June 30, 2026 and December 31, 2025, our working capital including cash and cash equivalents was \$768.4 million and \$698.4 million, respectively. The increase in 2026 was primarily driven by the increase in cash due to the net borrowings of our 2034 Senior Notes (as defined below). The increase was partially offset by accounts payable increasing \$32.7 million due to timing and increased material costs. We continue to look for opportunities to reduce our working capital as a percentage of net revenue.

The following table summarizes our cash flow activity (in millions):

	Six months ended June 30,	
	2026	2025
Net cash provided by operating activities	\$ 171.1	\$ 182.5
Net cash used in investing activities	(82.8)	(43.2)
Net cash used in financing activities	(15.7)	(161.7)

Cash Flows from Operating Activities

Our primary source of cash provided by operations is revenues generated from installing or selling building products and the resulting operating income generated by these revenues. Operating income is adjusted for certain non-cash items, and our cash flows from operations can be impacted by the timing of our cash collections on sales and collection of retainage amounts.

Our primary uses of cash from operating activities include payments for inventory, compensation costs, leases, income taxes and other general corporate expenditures included in net income.

Net cash provided by operating activities decreased from 2025 to 2026 primarily due to lower net income and increases in inventories and accounts receivable, partially offset by an increase in accounts payable due to the timing of business working days within the period.

Cash Flows from Investing Activities

Sources of cash from investing activities consist primarily of proceeds from the sales of property and equipment. Cash used in investing activities consists primarily of purchases of property and equipment and payments for acquisitions.

Net cash used in investing activities increased from 2025 to 2026 primarily due to increased spending on acquisitions of businesses in 2026 compared to 2025, partially offset by fewer purchases of property and equipment during the six months ended June 30, 2026.

Cash Flows from Financing Activities

Our sources of cash from financing activities consist of proceeds from the issuances of vehicle and equipment notes payable and, periodically, other sources of debt financing. Cash used in financing activities consists primarily of debt repayments, acquisition-related obligations, dividends and stock repurchases.

Net cash used in financing activities decreased from 2025 to 2026 primarily due to the net proceeds on the 2034 Senior Notes (as defined below). The decrease in net cash used was partially offset by less proceeds from vehicle and equipment notes and higher capital returns to shareholders via dividends and common stock repurchases during the six months ended June 30, 2026. See Part I, Item 1. Financial Statements, Note 7, Long-Term Debt, for more information on our debt transactions.

Debt

5.625% Senior Notes due 2034

In January 2026, we issued \$500.0 million in aggregate principal amount of 5.625% senior unsecured notes (the "2034 Senior Notes"). The 2034 Senior Notes will mature on February 1, 2034 and interest will accrue at a rate of 5.625% per annum from the date of original issuance and be payable semi-annually in cash in arrears on February 1 and August 1 of each year, commencing on August 1, 2026. The net proceeds from the 2034 Senior Notes offering were approximately \$492.4 million after deducting fees and offering expenses. We used approximately \$308.2 million of the net proceeds to redeem the outstanding principal and accrued interest on our 5.75% senior unsecured notes due 2028 (the "2028 Senior Notes" and, together with the 2034 Senior Notes, the "Senior Notes"). The remaining net proceeds will be used for general corporate purposes.

The indenture covering the 2034 Senior Notes contains restrictive covenants that, among other things, limit the ability of the Company and certain of our subsidiaries (subject to certain exceptions) to: (i) pay dividends on, redeem or repurchase stock; (ii) prepay subordinated debt; (iii) apply net proceeds from certain asset sales; (iv) engage in transactions with affiliates; (v) merge, consolidate or sell substantially all of its assets; and (vi) pay dividends and make other distributions from subsidiaries.

Credit Facilities

Term Loan Facility

We have a term loan credit agreement with Royal Bank of Canada as the administrative agent and collateral agent thereunder (the “Term Loan Agreement”), dated as of December 14, 2021 (as amended by the First Amendment thereto dated April 28, 2023, by the Second Amendment thereto dated August 14, 2023, by the Third Amendment thereto dated March 28, 2024, and by the Fourth Amendment thereto dated November 26, 2024). The Third Amendment allowed for the issuance of a new term loan (the “Term Loan”) in the amount of \$500.0 million which will mature on March 28, 2031. Net proceeds of the Term Loan were used to refinance the remaining principal on our previous term loan, pay fees and increase working capital. The Term Loan bears interest, at our option, at a rate equal to either: the adjusted Term SOFR plus 1.75% per annum, or an alternative base rate plus 0.75%.

The Term Loan amortizes in quarterly principal payments of \$1.25 million, with any remaining unpaid balances due on the maturity date of March 28, 2031. As of June 30, 2026, we had \$485.9 million, net of unamortized debt issuance costs, due on our Term Loan.

Subject to certain exceptions, the Term Loan will be subject to mandatory prepayments of (i) 100% of the net cash proceeds from issuances or incurrence of debt by the Company or any of its restricted subsidiaries (other than with respect to certain permitted indebtedness (excluding any refinancing indebtedness); (ii) 100% (with step-downs to 50% and 0% based on achievement of specified net leverage ratios) of the net cash proceeds from certain sales or dispositions of assets by the Company or any of its restricted subsidiaries in excess of a certain amount and subject to reinvestment provision and certain other exception; and (iii) 50% (with step-downs to 25% and 0% based upon achievement of specified net leverage ratios) of excess cash flow of the Company and its restricted subsidiaries in excess of \$15.0 million, subject to certain exceptions and limitations.

Asset-based Lending Credit Agreement

In January 2026, we amended and extended the term of our asset-based lending credit agreement (the “ABL Credit Agreement”). The ABL Credit Agreement transaction increased the commitment under the asset-based lending credit facility (the “ABL Revolver”) from \$250.0 million to \$375.0 million and extended the maturity date to January 21, 2031. Terms include a springing maturity 91 days ahead of the maturity date of any material indebtedness.

The ABL Revolver now bears interest at either the Secured Overnight Financing Rate (“Term SOFR”) or the base rate, at our election, plus a margin of 1.00% or 1.25% per annum in the case of Term SOFR advances or 0.00% or 0.25% per annum in the case of base rate loans (in each case based on a measure of availability under the ABL Credit Agreement). The ABL Credit Agreement contains a financial covenant requiring the satisfaction of a minimum of fixed charge coverage ratio of 1.0x in the event that we do not meet a minimum measure of availability under the ABL Revolver.

The ABL Revolver also provides incremental revolving credit facility commitments of up to \$105.0 million. The ABL Revolver also allows for the issuance of letters of credit of up to \$100.0 million in aggregate and borrowing of swingline loans of up to \$50.0 million in aggregate. Including outstanding letters of credit, our remaining availability under the ABL Revolver as of June 30, 2026 was \$372.1 million.

At June 30, 2026, we were in compliance with all applicable covenants under the Term Loan Agreement, ABL Credit Agreement and the 2034 Senior Notes.

Derivative Instruments

As of June 30, 2026, we had two active interest rate swaps with maturity dates of December 14, 2028. When combined, these interest rate swaps serve to hedge \$400.0 million of the variable cash flows on our Term Loan through December 14, 2028. For further information about our interest rate swaps, see Part I, Item 1. Financial Statements, Note 11, Derivatives and Hedging Activities. The assets associated with the interest rate swaps are included in other current assets and other non-current assets on the Consolidated Balance Sheets at their fair value amounts as described in Note 9, Fair Value Measurements.

Vehicle and Equipment Notes

We are party to a Master Loan and Security Agreement (“Master Loan and Security Agreement”), a Master Equipment Lease Agreement (“Master Equipment Agreement”) and one or more Master Loan Agreements (“Master Loan Agreements” and together with the Master Loan and Security Agreement and Master Equipment Agreement, the “Master Loan and Equipment Agreements”) with various lenders to provide financing for the purpose of purchasing or leasing vehicles and equipment used in

the normal course of business. Vehicles and equipment purchased or leased under each financing arrangement serve as collateral for the note applicable to such financing arrangement. Regular payments are due under each note for a period of typically 60 consecutive months after the incurrence of the obligation.

Total outstanding loan balances relating to our Master Loan and Equipment Agreements were \$82.2 million as of June 30, 2026 and \$98.5 million as of December 31, 2025. Depreciation of assets held under these agreements is included within cost of sales on the Condensed Consolidated Statements of Operations and Comprehensive Income included herein.

Letters of Credit and Bonds

We may use performance bonds to ensure completion of our work on certain larger customer contracts that can span multiple accounting periods. Performance bonds are generally released as the contractual performance is completed. In addition, we occasionally use letters of credit and cash to secure our performance under our general liability, workers' compensation and auto insurance programs. Permit and license bonds are typically issued for one year and are required by certain states and municipalities when we obtain licenses and permits to perform work in their jurisdictions.

The following table summarizes our outstanding bonds, letters of credit and cash collateral (in millions):

	As of June 30, 2026
Performance bonds	\$ 198.2
Insurance letters of credit and cash collateral	71.9
Permit and license bonds	11.7
Total bonds and letters of credit	<u>\$ 281.8</u>

We have \$65.3 million included in our insurance letters of credit in the above table that are unsecured and therefore do not reduce total liquidity.

Critical Accounting Policies and Estimates

Management's discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of our consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. Certain accounting policies involve judgments and uncertainties to such an extent that there is a reasonable likelihood that materially different amounts could have been reported using different assumptions or under different conditions. We evaluate our estimates and assumptions on a regular basis. We base our estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of our assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates and assumptions used in preparation of our consolidated financial statements. There have been no significant changes to our critical accounting policies and estimates during the six months ended June 30, 2026 from those disclosed in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section of our 2025 Form 10-K.

Recent Accounting Pronouncements

For a description of recently issued and/or adopted accounting pronouncements, see Note 2, Significant Accounting Policies, to our audited consolidated financial statements included in our 2025 Form 10-K.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws, including with respect to the housing market and the commercial market, our operations, economic and industry conditions, our financial and business model, payment of dividends, the demand for our services and product offerings, trends in the commercial business, expansion of our national footprint and diversification, our ability to grow and strengthen our market position, our ability to pursue and integrate value-enhancing acquisitions, our ability to improve sales and profitability, our efforts to navigate the material pricing environment, our ability to increase selling prices, our material and labor costs, supply chain and material constraints, impacts of inflation and interest rate trends, our hiring practices and expectations for demand for our services and our earnings in 2026. Forward-looking statements may generally be identified by the use of words such as "anticipate," "believe," "estimate," "project," "predict," "possible," "forecast," "may," "could," "would," "should," "expect," "intends," "plan," and "will" or, in each case, their negative, or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. By their nature, forward-looking statements involve risks and

uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Any forward-looking statements that we make herein and in any future reports and statements are not guarantees of future performance, and actual results may differ materially from those expressed in or suggested by such forward-looking statements as a result of various factors, including, without limitation the general economic and industry conditions; increases in mortgage interest rates and rising home prices; inflation and interest rates; the material price and supply environment; increased tariffs; uncertainty regarding the federal government's changes in fiscal, trade, monetary or regulatory policy; geopolitical conflicts, including the conflict in Iran; the timing of increases in our selling prices; the risk that the Company may reduce, suspend or eliminate dividend payments in the future; and the factors discussed in the "Risk Factors" section of our 2025 Form 10-K, as the same may be updated from time to time in our subsequent filings with the SEC. In addition, any future declaration of dividends will be subject to the final determination of our Board of Directors. Any forward-looking statement made by the Company in this report speaks only as of the date hereof. New risks and uncertainties arise from time to time and it is impossible for the Company to predict these events or how they may affect it. The Company has no obligation, and does not intend, to update any forward-looking statements after the date hereof, except as required by federal securities laws.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks related to fluctuations in interest rates on our outstanding variable rate debt. As of June 30, 2026, we had \$488.7 million outstanding on our Term Loan, gross of unamortized debt issuance costs, no outstanding borrowings on our ABL Revolver and no outstanding borrowings under finance leases subject to variable interest rates. As of June 30, 2026, we had two active interest rate swaps which, when combined, serve to hedge \$400.0 million of the variable cash flows on our Term Loan through December 14, 2028. As a result, total variable rate debt of \$88.7 million was exposed to market risks as of June 30, 2026. A hypothetical one percentage point increase (decrease) in interest rates on our variable rate debt would increase (decrease) our annual interest expense by approximately \$0.9 million. The 2034 Senior Notes accrue interest at a fixed rate of 5.625%.

For variable rate debt, interest rate changes generally do not affect the fair value of the debt instrument, but do impact future earnings and cash flows, assuming other factors are held constant. We have not entered into and currently do not hold derivatives for trading or speculative purposes.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report with the participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") as required by Exchange Act Rules 13a-15(e) and 15d-15(e). Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of June 30, 2026.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the three months ended June 30, 2026 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

See Part I, Item 1. Financial Statements, Note 16, Commitments and Contingencies – Other Commitments and Contingencies, for information about existing legal proceedings.

Item 1A. Risk Factors

As of the date of this report, there have been no material changes from the risk factors disclosed in our 2025 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The following table shows the stock repurchase activity, including shares surrendered by employees in connection with the vesting of restricted stock awards, for the three months ended June 30, 2026:

	Total Number of Shares Purchased ⁽²⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased under the Plans or Programs ⁽¹⁾
April 1 - April 30, 2026	38,429	\$ 309.41	—	\$ 474.6 million
May 1 - May 31, 2026	243,198	214.13	240,370	423.3 million
June 1 - June 30, 2026	125,985	200.30	125,000	398.3 million
	<u>407,612</u>	<u>\$ 218.84</u>	<u>365,370</u>	<u>\$ 398.3 million</u>

(1) On February 26, 2026, we announced that our board of directors authorized a new stock repurchase program that allows for the repurchase of up to \$500.0 million of our outstanding common stock. The new program replaces the previous program and is in effect through March 1, 2027. We repurchased \$76.2 million and \$101.7 million of common stock under our stock repurchase programs during the three and six months ended June 30, 2026, respectively. For further information about our stock repurchase program, see Part I, Item 1. Financial Statements, Note 12, Stockholders' Equity.

(2) Includes 42,242 shares surrendered to the Company by employees to satisfy tax withholding obligations arising in connection with the vesting of 125,646 shares of restricted stock awarded under our 2023 Omnibus Incentive Plan.

Item 3. Defaults Upon Senior Securities

There have been no material defaults in senior securities.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

During the three months ended June 30, 2026, no director or officer of the Company adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K.
