

INSTALLED BUILDING PRODUCTS REPORTS

RECORD THIRD QUARTER 2025 RESULTS

Columbus, Ohio, November 5, 2025, Installed Building Products, Inc. (the "Company" or "IBP") (NYSE: IBP), an industry-leading installer of insulation and complementary building products, today announced results for the third quarter ended September 30, 2025.

Third Quarter 2025 Highlights (Comparisons are to Prior Year Period)

- Net revenue increased 2.3% to an all-time record of \$778.2 million
 - Installation revenue increased 1.0% to \$721.1 million, including sales from IBP's recent acquisitions
 - Other revenue, net of eliminations, which includes IBP's manufacturing and distribution operations, increased 21.7% to \$57.1 million from \$46.9 million
- Net income increased 8.5% to a record of \$74.4 million
- Adjusted EBITDA* increased 5.7% to a record of \$139.9 million
- Net income per diluted share increased 12.3% to \$2.74
- Adjusted net income* was \$86.4 million, or \$3.18 per diluted share
- Net cash flow from operations increased 22.4% to \$124.1 million
- At September 30, 2025, IBP had \$333.3 million in cash and cash equivalents
- Repurchased 200,000 shares of common stock at a total cost of \$51.5 million
- Declared third quarter dividend of \$0.37 per share that was paid to shareholders on September 30, 2025

Recent Developments

- IBP's Board of Directors declared the fourth quarter regular cash dividend of \$0.37 per share
- Published the 2025 Environmental, Social and Governance Report highlighting the Company's continued efforts to support environmental sustainability, employee well-being, and community engagement in pursuit of a more sustainable and equitable future

“With another quarter of record financial performance, so far, 2025 has been an encouraging year for IBP. Our branches continue to execute at a high level, delivering reliable installation services to homebuilders of all sizes. While local market dynamics can vary greatly across the country, our results highlight the benefit of IBP's scale, product and end-market diversity, a focus on service, and the trust we place in all of our branches to make the right decisions for their local markets,” stated Jeff Edwards, Chairman and Chief Executive Officer.

Acquisition Update

IBP continues to prioritize profitable growth through its proven strategy of acquiring well-run installers of insulation and complementary building products. To date in 2025, IBP has acquired over \$58 million of annual revenue. We anticipate that certain acquisition targets may be delayed to 2026, which would result in acquired revenue for 2025 being less than our annual goal of at least \$100 million.

During the 2025 third quarter and October and November 2025, IBP completed the following acquisitions:

- In September 2025, IBP acquired Carolina Precision Fibers ACP, LLC, a manufacturer of cellulose-based insulation for homes, hydromulch for erosion control, and composite materials used in industrial applications based in Ronda, North Carolina with annual revenue of \$20 million.

- In October 2025, IBP acquired Echols Glass & Mirror, Inc., a value-added wholesale glass design and fabrication division and a retail sales and installation business, primarily serving residential customers throughout the Southeastern U.S. with annual sales of approximately \$12 million.
- In October 2025, IBP acquired Vanderkoy Bros, LLC, an installer of drywall and metal stud framing across a balanced mix of commercial and residential end markets throughout Wisconsin with annual sales of approximately \$4 million.
- In November 2025, IBP acquired Big Rock Insulation Corporation, an installer of insulation across single-family, multifamily, and commercial end markets across South Dakota, North Dakota, Wyoming, and Nebraska with annual sales of approximately \$3 million.

2025 Third Quarter Cash Dividend

On October 29, 2025, IBP's Board of Directors approved the Company's quarterly cash dividend of \$0.37 per share, payable on December 31, 2025, to stockholders of record on December 15, 2025. The fourth quarter regular cash dividend represents a 6% increase from last year's fourth quarter cash dividend payment.

Share Repurchases

During the three months ended September 30, 2025, IBP repurchased 200,000 shares of its common stock at a total cost of \$51.5 million and 700,000 shares at a total cost of \$134.9 million during the nine months ended September 30, 2025. At September 30, 2025, the Company had approximately \$365 million available under its stock repurchase program, expiring March 01, 2026.

Third Quarter 2025 Results Overview

For the third quarter of 2025, net revenue was a record of \$778.2 million, an increase of 2.3% from \$760.6 million for the third quarter of 2024. On a consolidated same branch basis, net revenue increased 0.4% from the prior year quarter. Residential same branch sales within the Company's Installation segment were down 2.8% in the quarter while commercial same branch sales within the Installation segment were up 11.7% from the prior year quarter.

We achieved a 1.5% increase in price/mix during the third quarter. This result was offset by a 4.8% decrease in job volumes relative to the third quarter last year. It is important to note that the results of our heavy commercial end market and the Other segment results are not included in the price/mix and volume disclosures. Including the heavy commercial installation sales, but still excluding the Other segment results, price mix increased 4.4% while job volume decreased 4.5% during the 2025 third quarter.

Gross profit increased 2.9% to \$264.2 million from \$256.8 million in the prior year quarter. Gross profit and adjusted gross profit* as a percent of net revenue were 34.0%, compared to 33.8% in the same period last year. Adjusted gross profit primarily adjusts for the Company's share-based compensation expense.

Selling and administrative expense, as a percent of total revenue, was 18.9% compared to 19.1% in the prior year quarter. Adjusted selling and administrative expense*, as a percent of net revenue, was 18.2% compared to 18.5% in the prior year quarter.

Net income was \$74.4 million, or \$2.74 per diluted share, compared to \$68.6 million, or \$2.44 per diluted share in the prior year quarter. Net profit margin for the third quarter was 9.6% compared to 9.0% in the prior year quarter. Adjusted net income* was \$86.4 million, or \$3.18 per diluted share, compared to \$80.1 million, or \$2.85 per diluted share in the prior year quarter. Adjusted net profit margin* for the third quarter was 11.1% compared to 10.5% in the prior year quarter. Adjusted net income accounts for the impact of non-core items in both periods, including an addback for non-cash amortization expense related to acquisitions.

EBITDA* was \$133.8 million, a 5.1% increase from \$127.3 million in the prior year quarter. Adjusted EBITDA* was \$139.9 million, a 5.7% increase from \$132.3 million in the prior year quarter, representing an adjusted EBITDA margin* of 18.0% and 17.4%, respectively.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the federal securities laws, including with respect to the housing market and the commercial market, our operations, industry and economic conditions, our financial and business model, payment of dividends, the demand for our services and product offerings, expansion of our national footprint and end markets, diversification of our products, our ability to grow and strengthen our market position, our ability to pursue and integrate value-enhancing acquisitions and the expected amount of acquired revenue, our ability to improve sales and profitability, and expectations for demand for our services and our earnings. Forward-looking statements may generally be identified by the use of words such as "anticipate," "believe," "expect," "intends," "plan," and "will" or, in each case, their negative, or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Any forward-looking statements that we make herein and in any future reports and statements are not guarantees of future performance, and actual results may differ materially from those expressed in or suggested by such forward-looking statements as a result of various factors, including, without limitation, general economic and industry conditions; increases in mortgage interest rates and rising home prices; inflation and interest rates; the material price and supply environment; increased tariffs; federal government shutdowns and uncertainty regarding the federal government's policy changes; the timing of increases in our selling prices; the risk that the Company may reduce, suspend or eliminate dividend payments in the future; and the factors discussed in the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2024, as the same may be updated from time to time in our subsequent filings with the Securities and Exchange Commission. In addition, any future declaration of dividends will be subject to the final determination of our Board of Directors. Any forward-looking statement made by the Company in this press release speaks only as of the date hereof. New risks and uncertainties arise from time to time, and it is impossible for the Company to predict these events or how they may affect it. The Company has no obligation, and does not intend, to update any forward-looking statements after the date hereof, except as required by federal securities laws.

***Use of Non-GAAP Financial Measures**

In addition to the financial measures prepared in accordance with U.S. generally accepted accounting principles (“GAAP”), this press release contains the non-GAAP financial measures of EBITDA, Adjusted EBITDA, Adjusted EBITDA margin (i.e., Adjusted EBITDA divided by net revenue), Adjusted Net Income, Adjusted Net Income per diluted share, Adjusted Gross Profit and Adjusted Selling and Administrative expense. The reasons for the use of these measures, reconciliations of EBITDA, Adjusted EBITDA, Adjusted Net Income, Adjusted Net Income per diluted share, Adjusted Gross Profit, and Adjusted Selling and Administrative expense to the most directly comparable GAAP measures and other information relating to these measures are included below following the unaudited condensed consolidated financial statements. Non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as a substitute for IBP’s financial results prepared in accordance with GAAP.

Reconciliation of Non-GAAP Financial Measures

EBITDA, Adjusted EBITDA, Adjusted EBITDA margin, Adjusted Net Income, Adjusted Gross Profit and Adjusted Selling and Administrative Expense measure performance by adjusting GAAP net income, EBITDA, gross profit and selling and administrative expense, respectively, for certain income or expense items that are not considered part of our core operations. We believe that the presentation of these measures provides useful information to investors regarding our results of operations because it assists both investors and us in analyzing and benchmarking the performance and value of our business.

We believe the Adjusted EBITDA measure is useful to investors and us as a measure of comparative operating performance from period to period as it measures our changes in pricing decisions, cost controls and other factors that impact operating performance, and removes the effect of our capital structure (primarily interest expense), asset base (primarily depreciation and amortization), items outside our control (primarily income taxes) and the volatility related to the timing and extent of other activities such as asset impairments and non-core income and expenses. Accordingly, we believe that this measure is useful for comparing general operating performance from period to period. In addition, we use various EBITDA-based measures in determining the achievement of awards under certain of our incentive compensation programs. Other companies may define Adjusted EBITDA differently and, as a result, our measure may not be directly comparable to measures of other companies. In addition, Adjusted EBITDA may be defined differently for purposes of covenants contained in our revolving credit facility or any future facility.

Although we use the Adjusted EBITDA measure to assess the performance of our business, the use of the measure is limited because it does not include certain material expenses, such as interest and taxes, necessary to operate our business. Adjusted EBITDA should be considered in addition to, and not as a substitute for, GAAP net income as a measure of performance. Our presentation of this measure should not be construed as an indication that our future results will be unaffected by unusual or non-recurring items. This measure has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Because of these limitations, this measure is not intended as an alternative to net income as an indicator of our operating performance, as an alternative to any other measure of performance in conformity with GAAP or as an alternative to cash flow provided by operating activities as a measure of liquidity. You should therefore not place undue reliance on this measure or ratios calculated using this measure.

We also believe the Adjusted Net Income measure is useful to investors and us as a measure of comparative operating performance from period to period as it measures our changes in pricing decisions, cost controls and other factors that impact operating performance, and removes the effect of certain non-core items such as discontinued operations, acquisition related expenses, amortization expense, the tax impact of these certain non-core items, and the volatility related to the timing and extent of other activities such as asset impairments and non-core income and expenses. To make the financial presentation more consistent with other public building products companies, beginning in the fourth quarter 2016 we included an addback for non-cash amortization expense related to acquisitions. Accordingly, we believe that this measure is useful for comparing general operating performance from period to period. Other companies may define Adjusted Net Income differently and, as a result, our measure may not be directly comparable to measures of other companies. In addition, Adjusted Net Income may be defined differently for purposes of covenants contained in our revolving credit facility or any future facility.

RECONCILIATION OF GAAP TO NON-GAAP MEASURES
ADJUSTED NET INCOME CALCULATIONS
(unaudited, in millions, except share and per share amounts)

The tables below reconcile Adjusted Net Income to the most directly comparable GAAP financial measure, net income, for the periods presented therein. We have included Adjusted Net Income in this press release because it is a key measure used by our management team to understand the operating performance and profitability of our business. During the three months ended June 30, 2024, we decided to wind down the operations of a single new commercial end market-oriented branch that focused on the installation of a non-core end product, due to shifting market conditions, an unfavorable contract settlement, and sub-standard operating performance. For the periods ended June 30, September 30, and December 31, 2024 we reported Adjusted Net Income (Loss), Diluted Adjusted Net Income (Loss) per Share, dispositions and net of dispositions in order to provide useful insight and metrics relevant to understanding and evaluating the results of our ongoing operations given plans to close a single new commercial end market-oriented branch. As of the three months ended June 30, 2025, the closing of this branch is essentially complete and its financial results were insignificant. Therefore, we have chosen not to report any financial results for dispositions or net of dispositions in the tables below.

Per share figures may reflect rounding adjustments and consequently totals may not appear to sum.

⁽¹⁾ Our commercial end market consists of heavy and light commercial projects.

⁽²⁾ Calculated based on period-over-period gross sales change, including intercompany transactions, in our Other category which consists of our Manufacturing and Distribution operating segments.

⁽³⁾ The heavy commercial end market, a subset of our total commercial end market, comprises projects that are much larger than our average installation job. This end market is excluded from the volume growth and price/mix growth calculations for our Installation segment as to not skew the growth rates given its much larger per-job revenue compared to the average jobs in our remaining end markets.

⁽⁴⁾ Calculated as period-over-period change in the number of completed same-branch jobs within our Installation segment for all markets we serve except the heavy commercial end market.

- (5) Defined as change in the mix of products sold and related pricing changes and calculated as the change in period-over-period average selling price per same-branch jobs within our Installation segment for all markets we serve except the heavy commercial market, multiplied by total current year jobs. The mix of end customer and product would have an impact on the year-over-year price per job.
- (6) We revised this calculation to exclude certain intercompany sales. Percentages in all periods presented conform to this revised method.
- (7) U.S. Census Bureau data, as revised. Three months ended September 30, 2025 and nine months ended September 30, 2025 only compares results through August. As of the date of this press release, U.S. Census Bureau data for September 2025 has not been published.
